## About Kontron Transportation – Member of the S&T Group

Kontron Transportation is a leading global supplier of end-to-end communications solutions for mission-critical networks. Its portfolio includes GSM-Railways, FRMCS (future railway mobile communication system), TETRA, DMR, LTE solutions for mission critical networks as well as mobility solutions for the public transport sector, such as Automated Fare Collection and Mobile Ticketing. Kontron Transportation is enabled with the entire service value chain, from planning, developing and producing to deploying, integrating, maintaining and operating.

Kontron Transportation invests in research and development and is driving the evolution into the next generation of broadband solutions for mission-critical networks, for instance as an associated member of the European research initiative Shift2Rail.

Kontron Transportation is part of S&T group and headquartered in Vienna (Kontron Transportation Austria AG) with main subsidiaries in Belgium, France, Germany, Portugal, Spain, the Czech Republic and United Kingdom.

# GATE VALIDATOR

## MG760

| OPERATING SYSTEM | LINUX |
|---|---|
| ELECTRICAL INTERFACES | Ethernet<br>RS232<br>RS485<br>Audio line out<br>Digital I/O<br>USB |
| HUMAN INTERFACES | 5.7" colour display<br>Touchscreen (option)<br>Buzzer<br>LED indicators |
| MEDIA INTERFACES | Various contactless cards and contactless bank cards<br>Barcodes (option) |
| POWER | Input 9 to 36 VDC<br>Nominal 24 VDC |

Our robust contactless gate validator seamlessly integrates in a variety of gates and turnstiles. Its various external hardware interfaces make it possible to integrate to both new and existing gates or turnstiles, which is certainly an added value for the MG760 compared to its competitors.

With its powerful processor, the Kontron MG760 delivers an industry leading validation experience for your customers. It offers excellent transaction processing performance, maximizes passenger throughput and minimizes waiting times.
